

# SCAMBIO INDIVIDUALE CON ORDRUP GYMNASIUM, COPENHAGEN A.S. 2017/18

Anche quest'anno tre studenti del Liceo Modigliani hanno partecipato allo scambio con la scuola partner di Copenhagen.

Lo scambio è rivolto ad un piccolo numero di studenti di quinta (tre-cinque), che ad inizio ottobre ospitano un partner danese e nella seconda metà di ottobre ricambiano la visita in Danimarca.

Le impressioni delle tre studentesse selezionate per partecipare quest'anno sono state molto positive. Ecco alcuni brani delle loro relazioni:

The experience of the cultural exchange was amazing.

The school system is very different from ours, in fact there are many pauses during the lessons and the teachers have a friendly relationship with the students.

I appreciated the lessons because the teachers tried to make us have an active part in the lessons; indeed we could intervene in all the lessons, even in the maths one.

Thanks to Belinda, the girl that hosted me, I could also attend a music lesson and take part to the gym lesson where we could try to dance the typical Danish dance, it was awesome and funny!

After school we went every day in a different place and we had the opportunity to see many places.

I really loved this experience. I recommended it to all the students that want to improve their English and live a new experience. (Chiara 5 E)

Even though my time there was short, I had a good impression of the environment. Ordrup Gymnasium is very well organized, equipped and big. I appreciated the timetable and the teachers appeared to be very inclusive. I especially liked the Italian teacher and talking to her was fun. When we weren't at school, my other two schoolmates and I visited Copenhagen and we had the time to see the most important buildings, museums and places of the city. We also had the opportunity to go to Malmö in Sweden. While I was there I noticed that the people had a different kind of routine, including different food and meal times. I really liked it and I think this is all part of doing an exchange program: try new things and emotions! I'm very happy about the exchange. I'm thankful to the Ordrup Gymnasium, to the principal, to the teachers and Karl's family for the great time spent in Copenhagen. The experience taught me a lot. I believe every student should have a special opportunity like this. (Anna 5 E)

The experience of the cultural exchange in Denmark has been unique. I have been in contact with a different culture and a different style of living and I have not only improved my English, but also learned many things I didn't know before. During my stay in Copenhagen I spent some days in the school attending the lessons with the Danish students. We were all together and the teachers involved us in the lessons making questions about our country and our school. We experimented subjects, like music, that we don't have in our school, we tried a typical Danish dance, that was very funny, and we experienced a type of teaching that is very different from ours, where the relationship between students and teacher is less formal. I found very intriguing also to attend an Italian lesson in another country, because it is fascinating to see how strangers learn my language. Discovering the city and the surrounding areas was wonderful. I'm in love with many aspects of Copenhagen like the architecture of the buildings and the sea. I really fell in love with the colours of the sea. The nature, the sea, the light are very different there compared with the Italian ones. I also had the opportunity of visiting many museums and other types of places like Tivoli gardens and the forest park "the Deer Park". Thanks to this experience I had the opportunity to improve my knowledge and I collected awesome memories. I am grateful for this opportunity and I heartily suggest the exchange to all students.
